Tango+
# vs Legacy
CCM Solutions

A Comparative Feature Analysis

100% Web based Architecture

Centralized installation serves Multiple Teams and Users with zero footprints.

Web Enabled Platform

All components of Tango+ are web enabled including Data, Designer, Production, Logic Studio and Business User Interface.
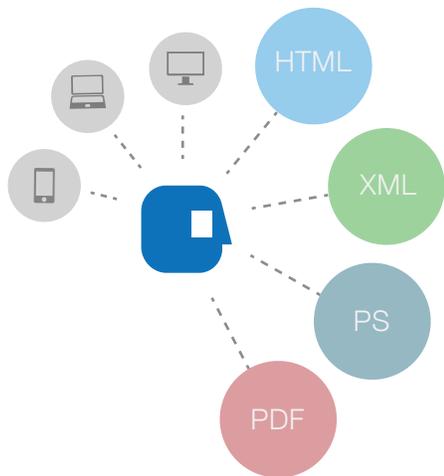

High Availability Deployment Architecture

Tango+ has a built-in controller that manages Multiple Production Servers. If one server fails the other one picks up; all seamless and invisible to the operator.

Load Balancer

Built-in load balancer manages load among Multiple Production Nodes (servers)
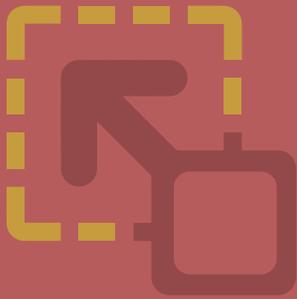

Multi Channel Delivery

Tango+ supports Multi-channel Delivery for outputs reconciliation and archiving. In addition, supported formats also include PS, PDF, XML, HTML, etc.

HTML

XML

PS

PDF

High Performance

Tango+ platform is built to handle high volume jobs, generating thousands of pages per-minute.
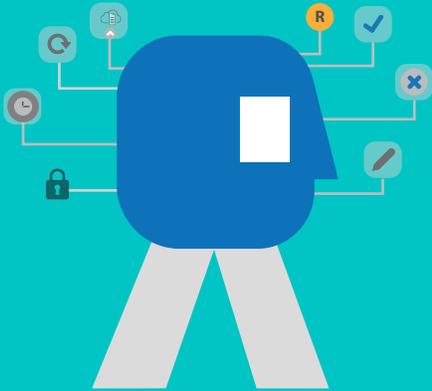

Scalable
Platform

A completely scalable platform.
For more firepower & performance
Multiple Production Nodes can be
added.

Interactive
HTML5

Tango+ is a ground up architecture that
has the capability to produce interactive
HTML5 statements.

Empwering Business User

Tango+ offers a Unique Business User Interface for non-IT users to manage changes in templates and workflows.
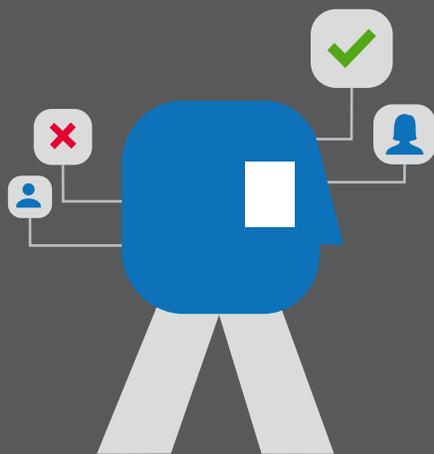

Whitespace Management

Manage whitespace & cross sell products by adding marketing messages on end user outputs.
